Blenheim chair
with NHC Cyclo-Therapy®

ADJUSTAMATIC
COMFORT YOU CONTROL

Blenheim

The ultimate in relaxation and comfort, our Blenheim chair combines superb craftsmanship and state of the art technology. Every aspect of the design has been considered to make your life more comfortable and to ease away aches and pains.

The back, seat and leg supports adjust independently to enable you to find the most comfortable sitting position. The Wallhugger® function allows you to have the chair against the wall and still use the chair in full recline, saving precious space. The Blenheim can also come with our unique NHC Cyclo-Therapy® massage therapy and Rolla-ssage® technology. With a wide range of fabrics to choose from, along with a selection of leathers, and four chair sizes, there are lots of customisable options available to ensure that the Blenheim is tailored to you.

The Blenheim chair's auto-lift facility is a particular benefit to those with mobility problems. If you have problems getting up or sitting down, the Blenheim chair offers a completely safe and stable way to gently ease you into a standing or sitting position.

Optional Rolla-ssage® technology

Inside every Blenheim chair are special features designed to ease your aches and pains. Rolla-ssage® consists of two small sets of rollers inside the chair that roll up and down your back or can be positioned in specific areas, providing a deep penetrating massage that releases any built up tension in the back muscles.

NHC Cyclo-Therapy®

Our medically proven NHC Cyclo-Therapy® system, used within healthcare and backed by over 25 medical papers, delivers both pain-relieving and circulation stimulating therapy. The cycloid action comprises of a multi-directional wave moving up and down, sideways and in a circular direction all at the same time.

The result is a deep penetrating massage, providing a multitude of benefits with no harmful side effects.

Wallhugger®

Another key feature of the Blenheim is the Wallhugger®. Unlike any other riser recliners, when you recline the Blenheim's backrest, the remaining part of the chair slides forward to accommodate the movement whilst the base stays firmly in place. This enables you to place your chair close to the wall, saving you space.

Key product benefits

- Three independent NHC Cyclo-Therapy® massage motors with adjustable speeds located in the backrest, footrest and seat
- Triple motor, each end fully reclines and rises independently with ease
- Wallhugger®, zero proximity space-saving feature
- Optional Rolla-ssage® technology. Two strategically positioned sets of rollers built into the chair that roll up and down to provide a deep penetrating massage
- Includes extra support for hips, waist, shoulders and neck
- Available in 4 sizes
- Wide range of fabrics available

Blenheim chair full rise action

Blenheim 2-3 seater sofa

To complement our ultimate riser recliner we have designed a matching two or three seater sofa, or matching companion chair to create a stylish suite which will look great in any home.
